Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/023,599	Applicant(s) TURINA ET AL.	
	Examiner PHUC H. TRAN	Art Unit 2616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 January 2006.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-9, 11-14, 16-56 and 58-77 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 11-14, 19-43, 58-62 and 64-77 is/are allowed.
- 6) ☒ Claim(s) 45-56 is/are rejected.
- 7) ☒ Claim(s) 1-9 and 16-18 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Objections

1. Claims 1, 16, 27 are objected to because of the following informalities: “an MTP3”, “SIGTRAN” needs to rewrite the acronym in complete word. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 45-56 are rejected under 35 U.S.C. 102(e) as being anticipated by Euget et al. (6816479 B1).

- With respect to claims 45, 48, & 53, Euget teaches a method of exchanging signaling messages between a signaling source node and a signaling target node using a name based addressing scheme (e.g. the method and system for pre-loading access nodes), said method comprising:

identifying a destination in relation to a node name of the signaling target node (col. 5, lines 34-35); and

exchanging signaling messages over a packet transport network from the signaling source node to the signaling target node using the name based addressing scheme (e.g. communicates between users in Fig. 3).

- With respect to claims 46, and 49, Euget teaches wherein said destination is a peer signaling association (col. 4, line 36).

- With respect to claim 47 and 50, Euget teaches wherein said destination is a transport address (col. 3, lines 8-15).

- With respect to claim 51, Euget teaches further comprising storing a relation between a destination and a node name before exchange of signaling messages for subsequent name resolution (205 in Fig. 2).

- With respect to claim 52, Euget teaches further comprising grouping a plurality of destinations onto a node name (col. 9, lines 12-13).

- With respect to claim 54, Euget teaches further comprising establishing an initializing communication link from the signaling source node to the signaling target node using a predetermined target node address (col. 10, lines 39-40).

- With respect to claim 55, Euget teaches wherein initializing of the communication link is established using a stream control transmission protocol layer and exchanging signaling messages is achieved using a user adaptation layer (col. 3, lines 2-7).

- With respect to claim 56, Euget teaches wherein initializing of the communication link and exchanging of signaling messages is achieved using a stream control transmission protocol layer (col. 1, lines 42-43).

Allowable Subject Matter

4. Claims 11-14, 19-43, 58-62, and 64-77 are allowed.
5. Claims 1, and 16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. Claims 2-9, 17-18, and 27 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments with respect to claims 45-56 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Delvaux (U.S. Patent No. 6718419 B1) discloses system and method for extending the number of addressable physical devices on a data bus.

McAllister et al. (U.S. Patent No. 6501755B1) discloses stacked address transport in connection oriented networks.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to PHUC H. TRAN whose telephone number is (571) 272-3172. The examiner can normally be reached on M-F (8-4:30).

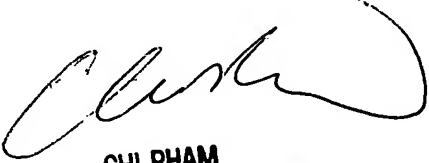

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, CHI PHAM can be reached on (571) 272-3179. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 2616

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
